

NAPFA 2019 Annual Membership Draw

The NAPFA 2019 Annual Membership Draw took place on Easter Saturday April 20th at the Man from Ironbark festival. NAPFA wish to thank our sponsors on behalf of all members who generously donated to the cause, and without our sponsors we would not have had the best draw to date.

I must say that every year our major prizes in our competitions always go to someone worthy of the prize.

GPX5000

Superior Gold Detecting!

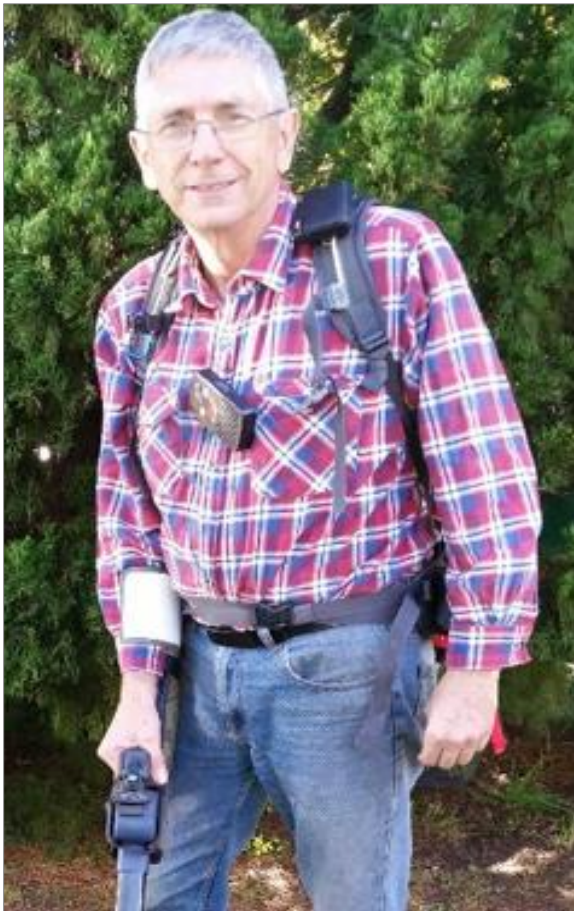

High performance MPS technology combined with the versatility of many search coil options make the GPX 5000 a favourite for serious prospectors.

This year the **Minelab GPX-5000** went to Colin Shand (*pictured at right*).

He was previously using a Minelab GP Extreme, so that's a decent upgrade for Colin.

Once again a very big thank you to Minelab and all their staff for this on behalf of NAPFA and our members.
